MAY COMPROMISE!

This Week May Witness the End of the Montana Muddle--The Republican Scheme.

HELENA, Mont., Dec. 31.—This week will probably see a solution of the political difficulty. Both parties were caucussing all day yesterday, but no agreement was reached. The senate, irrespective of party, is in favor of a compromise. The house, on the contrary, will not listen to anything of the kind.

It is positively known that the republican leaders here have telegraphed Senators Sherman and Ingalls whether or not they shall elect senators. If a favorable reply is received they will elect at once, as it will be taken as a promise that the men chosen by the republicans will be seated if sent to Washington.

If Sherman and Ingalls do not advise a move of this kind the election will be postponed for a few days or until the republicans of the United States senate can be canvassed on the subject.

Sheriff Lloyd, the Republican incumbent in Silver Bow county, who has refused to surrender his office to Sullivan, the democrat-elect, met Sullivan yesterday in the Grand Central dining room and commenced to abuse him. Each simultaneously pulled his gun, when two waters seized and held them until friends came and took them away.

DR. PETERS.

The Missionary Said to be Alive and Well.

BERLIN, Dec. 31.—The *Tageblatt* claims to have information from an undeniable source that Dr. Peters and party are certainly alive and that the doctor and followers are marching between Kenia and Barringo.

LONDON, Dec. 31.—Lord Salisbury's physicians announce that their distinguished patient is suffering from a severe chill.

Dr. W. Oswell Livingstone, the only surviving son of David Livingstone, the famous African explorer, died last night at his home at St. Albans.

Morton C. Fisher, a wealthy Californian, well-known in New York and one of the best known Americans in London, was found dead in his chambers yesterday. Fisher spent Sunday evening at the house of a friend and went home early. He was heard breathing heavily at 11 o'clock yesterday morning and his door was forced open at 1 p. m., when he was found dead.

STRIKING EMPLOYES

Hold a Meeting and Denounce "Scabs" and "Thugs."

PITTSBURG, Dec. 31.—A largely attended meeting of the striking employes of the Pittsburg Traction company was held in the Knights of Labor hall last night, between the hours of midnight and 3 o'clock this morning. The situation was thoroughly discussed and resolutions were adopted condemning the Pittsburg Traction company for importing "scabs" and Pinkerton "thugs" and asking the public to refuse to patronize the road while non-union men were employed.

Superintendent Davis claims this morning that the company has won the day, and that business on the road will proceed without further interruption. The cars are running regularly, and there is very little to indicate that there is a strike on.

BLAINE'S BROTHER.

Death of Prof. M. C. Blaine, at Salem, Oregon.

SALEM, Ore., Dec. 31.—Prof. Melville G. Blaine, principal teacher at the Chemewa Indian training school near Salem, and a brother of Secretary James G. Blaine, died last evening, after a brief illness, at the age of sixty-three. He was a man of rare ability, a fine speaker and an able educator. He came to Oregon in 1876, and had resided here since. He leaves a son. His wife, whom he married in Illinois, died last April. He served in an Illinois regiment through the late war.

A NIHILIST PLOT

To Assassinate the Russian Czar Frustrated.

PARIS, Dec. 31.—The *Le Siecle* publishes a dispatch from St. Petersburg stating that a Nihilist plot to assassinate the czar was recently discovered at the imperial palace. Among those implicated were a number of the inmates of the palace, several of whom were arrested in the passages. One of the conspirators, while resisting arrest, was killed by an officer of the guard.

The Weather.

WASHINGTON, Dec. 31.—For Indiana—Fair, warmer; southerly winds.

A WILD TEAM.

An Exciting Runaway Resulting in Damages and Injuries.

Shortly before noon to-day a team of horses belonging to Farmer S. Snyder, of Lake township ran away on Main street, running at a wild speed in an easterly course.

In front of the Globe a buggy belonging to Kaylor, the brick-yard proprietor, was struck and upset. The vehicle was damaged.

In the wagon drawn by the runaway team were Snyder and wife. Both jumped, the latter receiving injuries of a serious though not dangerous nature.

After running several squares the animals were stopped but not until the wagon was a complete wreck.

The street was lined with vehicles and it is almost a miracle that more injury and damage was not done.

ANOTHER ONE.

Yesterday Mrs. Robt. W. Tapp, with her baby and servant girl, were out riding on East Wayne street. The black pacing horse, which she was driving, became frightened at some evergreen trees, which were standing near the sidewalk, and ran away and all the occupants were thrown out and badly injured. The buggy was smashed to pieces.

THE STANDARD CLUB.

The Hebrew Society Inaugurates the Season's Receptions.

Last evening the Standard club inaugurated the season's receptions at the newly furnished hall and parlors in the Ninde block.

This club has among the finest of social apartments in Indiana, which are fitted up in elegance at a considerable expense.

The inaugural last night was marked for its brilliancy and enjoyable features. The main hall was beautifully decorated. Here fifteen dances were gone through to the strains of Reinke's orchestra.

There were present 150 ladies and gentlemen, and from abroad were noted Miss Hattie Rothschild, Miss Emma Frank, Terre Haute; Miss Clara Ehliel, Miss Minnie Falsenthal, Chicago; Miss Hannah Kraus, Columbia City; Miss Clara Rosenthal, Wabash; Miss Ullman; Titusville, Pa.; Mr. and Mrs. Lehman, Cincinnati; Mr. Ed. Rosenthal, Sig. Folz, Chicago; Max Kraus, Columbia City.

The committees were as follows:

Reception Committee—Louis Hirsh, A. Mergentheim, J. Greensfelder, I. Strass, Chas. Falk.

Floor Managers—A. J. Friend, Max B. Fisher, Ben Lehman, Theo. Frank, H. Freiburger.

The event was undoubtedly the most successful in the history of the club.

BAD DOGS.

The Canines Kill Twenty Sheep Belonging to Farmer Jones.

Dogs did bad work in Jackson township last week.

The canines out there have a love for sheeps' blood and have been murdering the innocent animals for some time.

One night last week they got into the sheep stable of Mr. John Jones, a farmer, and killed twenty sheep, valued at $70. The neighborhood is aroused and the canines found guilty of committing these midnight deeds of blood will be shot.

Three dogs, which were probably guilty of killing sheep, were shot in St. Joe township this week.

LA GRIPPE!

The Malady Enters the Home of Vice-President Morton--Its Work Elsewhere.

WASHINGTON, Dec. 31.—La Grippe has invaded the residence of the vice-president, and Mrs. Morton has for three days been suffering from a most aggrevating attack of the Russian malady. Until yesterday afternoon, she was confined to her bed.

ALBANY, N. Y., Dec. 31.—The grip has spread rapidly here in the last few days and the doctors are hard pressed to keep up with the constant demands upon them. The public departments are run with only partial forces. In the capitol there are many empty desks. Chancellor Pierson was taken ill with the disease.

Mr. Ruggles is down with the grip and pneumonia. The secretary of state, Mr. Cook, was stricken with the influenza and was taken back to Rochester yesterday. Several heads of departments are sick. The doctors here are certain that a majority of the cases are of the genuine Russian type.

KINGSTON, N. Y., Dec. 31.—Physicians in this city report a large number of the grip. One third of the composing force of the *Evening Freeman* is down with the LaGrippe.

WARSAW, N. Y., Dec. 31.—The influenza epidemic has appeared only sporadically among the adults of the Western New York salt fields. Among children however, it is prevalent, and in these cases the fever runs high accompanied by delirium.

NEWBURG, N. Y., Dec. 31.—The grip is here. Among the prominent citizens who have had it are District Attorney Hirschberg, Alderman C. S. Gibbs, Prof. C. S. Moscow, David A. Scott and Homer Ramsdell. Dr. Smith Ely says he is kept busy with several cases and another doctor is reported to have forty cases. Many children are afflicted with it. It is reported also that every editor but one in Port Jervis has it.

CARLISLE, Pa., Dec. 31.—The Russian influenza has appeared in the Cumberland valley. Fully 500 cases are reported. In this city the physicians say there are 125 cases, but few of them are serious natures. No deaths have been reported as yet.

JERSEY CITY, N. J., Dec. 31.—The grip caught on here and has spread over the entire city. There is scarcely a dwelling where one or more inmates are not suffering from its attack or some ailment which they term the grip.

BOSTON, Dec. 31.—According to the records at the office of the board of health there have been two deaths of adults in this city since Saturday, caused by influenza in conjunction with other disease, making a total of six. It is the opinion, nevertheless, that "la grippe" has begun to abate.

The report comes from the various public institutions on the island that the malady has obtained a secure foothold among the inmates and is spreading. There are 100 severe cases now in the hospital and seventy-five or more outside. Less than a half dozen cases have been reported in the police department since last week. Of the 900 post-office employes, 100 are off duty.

BRIDGEPORT, Conn., Dec. 31.—All the physicians in the city are kept busy these days by patients suffering from the grip in the neighboring town of Fairfield. On Sunday the Rev. Mr. Child was attacked with it in his church, while leading his congregation in prayer. He could not proceed, and dismissed them then and there.

LONDON, Dec. 31.—The influenza has made its appearance in this city. A number of the government officers have attacked by the disease.

TRENTON, N. J., Dec. 31.—Every physician in the city is busy attending patients afflicted by the influenza. Very few families have escaped the epidemic but only two or three serious cases are reported. Even some of the physicians themselves have succumbed to it and are confined to their homes. One fatal case was reported last evening. It was that of Michael Mulhall, twenty-six years old.

BIRMINGHAM, Conn., Dec. 31.—The twelve physicians of the towns of Derby, Shelton and Ansonia report that between 100 and 200 cases of la grippe have appeared since Saturday night. It has appeared with great effect among railroad employes and several of the trains are compelled to run short handed.

MRS. MORTON HASN'T THE LA GRIPPE.

WASHINGTON, Dec. 31.—Inquiry at the home of Vice-President Morton develops the fact that the vice-president is not sick. Mrs. Morton has been confined to her bed for several days, but not with influenza, as reported. Mrs. Morton expects to assist at the president's reception to-morrow, and to preside over the vice-president's reception as well.

KEEN EYED JUSTICE.

After a Long Time it Searches Out a Crook Who Operated Here.

Quite a while ago T. H. Hodge, of Chicago, came to this city and tried to negotiate of I. Lauferty, the banker, a loan of $500, offering as security a note mortgage for $1,500 on property of John McConnell, of Chicago.

Inquiry of a Chicago attorney revealed that the paper held by Hodge was not good. The rascal slipped out before he could be arrested. Authorities at Chicago were notified and last night Sheriff Viberg received a telegram from Chicago to the effect that Hodge was under arrest.

The sheriff left for that place on the first train and will probably return with his prisoner to-night on train 8.

Prosecutor Robinson says he has a case against his man.

Miss Nellie Deitrick, aged eighteen years and ten months, died at 12 o'clock Thursday, the 26th inst., at her home near Chamberlain P. ATTACKED BY ROWDIES.

A Party of Young Workmen Assaulted Without Warning.

The police court this morning was of more than ordinary interest and there was a large crowd in the lobby to take in the proceedings.

Nicholas Gossert and Herman Hilker, two young fellows, were arraigned on a charge of assault and battery on Joseph Junck and Joseph Wilhelm, employes of Olds' wheel works. The prosecuting witnesses testified that they were in a party consisting of Peter and Jacob Junck and Mat Renen and John Schuh, fellow employes, who were going home from work last evening, when they were assaulted at the corner of Lafayette and Virginia streets.

The witnesses bore marks of having been roughly handled and several cuts attest to the fact that knives were used. The mayor sent Gossert to jail for sixteen days and Hilker was held under $100 bonds until Friday, when his case will come up for hearing. In the meantime an effort will be made to arrest the rest of the assaulters.

Henry Wilhelm, who for a time was a sewing machine agent, was up on charge of assault and battery on his wife. Henry admitted that he had been drinking heavily. The mayor gave him a lecture and assessed a fine of $25 and costs or thirty-six days in jail. The prisoner went to jail while his friends were making an effort to raise the colatteral for his release.

James McGuire and James O'Brien were arrested by Officer Lapp for drunkenness. Both went to jail.

A stranger from Bluffton was arrested by Officer Tremmel on a charge of nuisance. The affidavit was changed to intoxication and the fine was paid.

A Paternity Suit.

Louis Schins, a farmer living near Huntertown, is in jail on a charge of being the parent of his stepdaughter's babe. 'Squire France will hear the case next Friday. The girl claims that he accomplished her disgrace by force. The girl and her child are in the hospital.

IT IS said that the negroes of Georgia, who twenty-five years were slaves, now possess $20,000,000 worth of property.

CALVIN S. BRICE tells a Cincinnati reporter that he has in the past belonged to the Pendleton element of the democratic party in Ohio, but he congratulates himself that now there are no factions in the party.

THE Washington correspondent of the Philadelphia *Record* tells of a member of the present house whose seat in the congress of the United States cost him $75,000 in cold cash. His name is Frederick G. Neidringhaus, and he comes from St. Louis. He is the president of an extensive rolling mill in that city, and is an ardent protectionist. If he has his way in revising the tariff he expects to get his money back.

COLONEL DANIEL S. LAMONT, when asked to express himself on politics as a career for young men, said: "The time for a man to enter politics, to take an interest in government, and, so far as he can, to influence party action for the right in whatever station he may occupy, is when he is twenty-one. The time for a man to enter politics for the purpose of seeking office and engaging in office-holding as a life work is some time after he has passed the limit of three score years and ten—in my judgment."

A LARGER number of patents were issued during the past year than ever before in the history of the patent office. The total number issued was 23,360. In 1885 the issue was within twenty-eight patents of being as large. Last year there were 19,585 patents issued. An interesting statement has been prepared at the patent office showing the number of patents issued each year from 1836. Fifty-three years ago the number of patents issued in one year was 109, and from that time down to the present nearly each year shows an increase in the number of patents issued as compared with the previous year.

PROFESSOR EDWARD ORTON, state geologist, of Ohio, estimates that the natural gas fields of Ohio and Indiana will be exhausted within nine years, at the present rate of consumption, and that it will require thousands of years to again accumulate in sufficient quantities to be used. Professor Orton has made a very careful study of the natural gas fields in Ohio, and is as able to express a scientific opinion as any one who has written on the question, but natural gas is a product so new and so difficult of satisfactory explanation that this opinion will have little weight with the people who are investing their money and consulting their convenience by substituting gas for coal.

WAS ADAM THE FIRST MAN.

Rev. J. F. Barnes, of the Church of Our Father, of Chicago, preached a sermon last Sunday in which he held that it could not be proven by the Bible that Adam was the first man on this earth. In substance he spoke as follows, the quotations being from the report of the Chicago *Times* of his sermon:

"The idea that Adam was the first man can not be sustained from the Bible. Moses in Genesis spoke of Adam as the first man only in a certain sense as the progenitor of the Hebrew people. It was evident from the Bible that Moses recognized the existence of other peoples, although he was evidently somewhat mystified about them. When he said, 'Then began man to call upon the name of the Lord,' he clearly meant the term man to signify the representative of the Hebrew people or the Lord's people. In the sixth chapter of Genesis we are told that the sons of God saw the daughters of men; that they were fair, and took them to wife of all that they would. Now these "sons of God" were evidently the sons of the Hebrew race, but from whence came the "daughters of men?"

"From the very beginning of creation the biblical account in Genesis admitted enough to destroy the tradition that Adam was the first man. To Adam and Eve were born two sons. Cain killed his brother Abel and fled the country. There is no account of any other children and no account of a second marriage. Cain married after he went to the land of Nod, where he built a city. A son named Enoch was born to him, and Cain then built another city in honor of his son and called it after him. This was a fortified city. Why should he have fortified it except from the apprehension that it might be attacked from without? Attacked by whom? Undoubtedly by other tribes of people. If the evidences in Genesis were closely examined and construed together there was found good ground for the belief that there were pre-Adamite tribes and that Adam himself was one of them. Upon the basis of the laws of nature alone Adam could not have been the first man. There was no retrogression in God's laws."

The argument of Rev. Barnes is an old one, and has been refuted by learned divines and Biblical scholars time and time again. Hebrew history, which is authentic and reliable, proves that Adam was the first man created and the greatest historians and thinkers of the present and past admit it as a proven and established fact. Some fellow will be attempting to prove afterawhile that Julius Ceasar and Napoleon Bonaparte never lived.

SAM SMALL.

How the Ladies Came to Secure Him for His Lecture at the Academy To-Morrow Evening.

The Women's Christian Temperance union offer a grand treat to-morrow evening at the Academy to the citizens of Fort Wayne. It is the lecture of Rev. Sam Small on the subject, "From Bar-room to Pulpit."

The securing of this noted orator was in the nature of a Christmas gift, and was brought about in this way: On Thursday Mrs. James E. Graham, the president of the Women's Christian Temperance union, received the following letter from Rev. Small:

TIFFIN, O., Dec. 25, 1889.

In my schedule of dates, I find Wednesday evening, January 1, is vacant, I presume on the bureau's theory that I would want "rest" on that day. But of all other days in the year that is the one on which I would prefer to do something for the Master and mankind.

As I will be near to Fort Wayne and have never lectured there, I have thought to offer to come that day and give my lecture, "From Bar Room to Pulpit" that evening, provided your union would secure a place for the lecture without cost to themselves or myself, and make the lecture FREE TO ALL.

Wishing you a "merry Christmas" and God's blessing upon you, the union, and its work,

I am yours sincerely,
SAM. W. SMALL.

Mrs. Graham immediately called a meeting of the union. It was decided to accept Mr. Small's kind offer and he was telegraphed to come.

It is needless to say that the speaker will have an audience. The Academy will be packed from door to stage and it will be a great New Years night for the temperance cause in this city.

Sam Small is one of the most eloquent and interesting platform speakers in the nation. He is the companion of Sam Jones. Years ago they were drunkards together in the state of Georgia. They signed the pledge and reformed, and have lived sober, useful lives ever since. Sam Small, like his former companion, Sam Jones, tells plain truths in a plain way and has achieved a national reputation as a lecturer.

BILLIONS OF ANCESTORS.

Some Figures as to Our Progenitors That Are Startling.

Did you ever think, says the St. Louis *Republic*, how many male and female ancestors were required to bring you into the world? First, it was necessary that you should have a father and mother—that makes two human beings. Each of them must have had a father and mother—that makes four more human beings. Again, each of them must have had a father and mother—making eight more human beings.

So we go back to the time of Jesus Christ—fifty-six generations. The calculation thus resulting shows that 139,234,017,489,434,976 births must have taken place in order to bring you into this world—you, who read these lines. All this since the birth of Christ—not since the beginning of time. According to Proctor, if from a single pair, for 5,000 years, each husband and wife had married at twenty-one years of age and there had been no deaths, the population of the earth would be 2,199,915 followed by 144 ciphers. It would require to hold this population a number of worlds the size of this, equal to 3,166,526 followed by 125 ciphers. The human mind shrinks in contemplating such immense numbers.

A ROLLING.

The Old City Mills in Full Operation Again.

In looking over the many old and new manufacturing interests of this city, we cannot help but to also take in consideration the flour milling industry of which the newly remodeled mill of C. Tresselt & Sons, known for over forty years as the City Mills, is a part. Early this spring, Messrs. Tresselt & Sons began with the tearing out of all the old machinery, bins, floors, etc., in this building then used as elevator and flour warerooms. Ton after ton of old iron machinery were taken out, and load after load of old lumber removed to make room for new machinery. A brick addition for boiler and engine room was built and the outside of the mill building was quite changed in appearance by a covering of corrugated iron on both sides and roof, making it both attractive and fire-proof. Last June the contract for the new milling machinery was let to the Nordyke & Marmon company, of Indianapolis, who at once sent a force of competent mill-wrights, under the charge of Mr. A. A. Croft, to set up the plant, which now is in full operation. The power plant consists of a new Atlas boiler, sixty inches by fourteen feet in dimensions, sixty-two flues fired by natural gas and a new Buckeye engine 100-horse power. In basement are the bottoms of the twenty-seven elevators that carry the stock from and to the different machines. On the grinding floor we notice on the side seven double sets of the celebrated Nordyke & Marmon rolls, on the other three Eureka flour packers, manufactured at Silver Creek, N. Y. On the second floor are the flour chests, three in number, stockhoppers, two of the renowned Smith purifiers, made at Jackson, Mich., wheat cleaning machines, bran and feed dusters, etc. On the third floor, to one side, close to the peek of the roof, are seven large dust drums, known as the Cyclone dust collectors, on the other, the flour scalpers and dressers, sixteen in number, driven and connected by chain belts, which, when in operation, present quite a pretty sight. The work of spouting, etc., shows that no money nor care was spared to make the job a first-class one, and we may well say that the new City mills is second to none. The mill has a capacity of 150 to 200 barrels per day and is now in full operation in filling orders for export. The brands of flour manufactured for home trade are known as the City Mills' Hungarian process and Silver Dollar patent, and are for sale by all grocers. This new industry adds again to the manufacturing interests of our growing city and speaks well for the energy and enterprise of the firm, consisting of C. Tresselt, who for over forty years has been a resident of our city and has been in active business all this time, and his sons, Oscar W. Tresselt, an experienced miller, who spent two years in Europe, especially Hungary, to learn his trade, H. C. Tresselt and Fred T. Tresselt.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

The Silver Dollar.

The Purchasing Power of Money. The Price of Necessaries, Luxuries and Evils.

One dollar, be it silver or greenback, will buy enough bread to last a family several days, enough bad whiskey to get one man drunk and disorderly and earn him a ten dollar fine, enough rope to hang a horse-thief, enough arsenic to poison one hundred rats, enough coal to make a very hot fire, and, above all, and better than all, enough Rogers' Royal Nervine to cure many most serious diseases. The beauty of this remedy is, that it can hurt no one, that it is essentially a tonic and nerve-food, that it improves the stomach's tone while it builds up the brain and nerves.

CLERKS TRIUMPHANT.

Clothing Clerks Induce Their Employers to Close Their Stores at Six O'clock.

Commencing the first of the year, the clothing stores of the city will close at 6 p. m., except on pay-days and Saturdays.

This departure was brought about after continued effort of the clerks, who consider ten hours a day's work. The proprietors granted their employes' request without a murmur, when Mr. Louis Schirmeyer personally presented the clerk's side of the case to them.

There is no organized body of clerks, and this action was purely independent.

THE MAIL SERVICE!

Uncle Sam is Rich and the Railroads Whack it to Him--Gossip From the Busy Centers.

The postmaster general has asked congress to appropriate $21,106,275 for carrying the mails next year, and $2,543,000 in addition for the rent of the postal cars in which the mails are carried.

Of the $21,000,000 above mentioned not less than $10,000,000 will be paid to the comparatively small number of large roads that haul heavy mails in postal cars and get the extra $2,500,000 for the use of the cars. The other $11,000,000 will be divided among the great number of minor roads that do not get any of the extra compensation for the use of cars.

The present schedule of payments to the roads was fixed in 1873. The rate of pay then fixed for carrying the mails by weight has been reduced on two occasions, in 1876 and 1878, the total of both reductions being 14.5 per cent. For eleven years there has been no change in the rate by weight; in the rate of pay for the use of the postal cars there has been no change since the present schedule was adopted sixteen years ago, and the total amount paid for the use of the cars has doubled since 1880, previous to which time it was not separately reported.

The Statistical Abstract of the United States contains a tabular statement of the freight rates per ton per mile on a considerable number of roads. This shows that the average charge was 1.803 cents in 1873 and 0.974 in 1887. On the leading lines of the country, then, fairly representing all the roads that get about half of the weight pay and the whole of the postal car pay, the charge to private shippers has been reduced one-half while the charge to the government has been reduced one-seventh.

The establishing of car-service association to control all important railroad junction points will, doubtless, lead to the building of elevators and storehouses, and more tracks at all important railroad points, inaugurating a new method of doing business, and one which promises good results.

It is reported that steps to oppose the eight-hour movement proposed by the American Federation of Labor will be taken at the meeting of the National Builders' association in St. Louis next month. It is also understood that a firm stand against the movement will be taken by the builders on May 1 if the employes attempt to enforce it.

The Pennsylvania people expect to have the cut-off line, which will run from Downington to Morrisville, Pa., which will be fifty-three miles in length, completed by December 1, 1890. It is stated that the relief which this improvement will afford to the New York and Philadelphia divisions will be equal to fully 50 per cent. of the gross traffic now being condemned.

J. D. Byanski, machinist at the Pittsburg shops, while at work yesterday afternoon, met with an accident by which the nail on one of his thumbs was completely torn from that member. The accident was a very painful one, but Mr. Byanski scarcely flinched as he went to the office of Foreman Fitspatrick, where Clerk Christ Daseler placed a bandage around the wound. The injured employe will be off duty for some time.

The following appointments have been made by the Ohio, Indiana and Western road: J. A. Shirely, superintendent of telegraph; C. N. Atkinson, car accountant; J. H. M. Claggett, cashier and paymaster. Mr. Palmerton has for twenty years been a conductor on the road, and Mr. Shirely chief train dispatcher for the same period. Mr. Claggett was car accountant, and was in the car when Superintendent Wilson and Trainmaster Cummins were killed. Mr. Atkinson will retain his place as chief clerk to the general manager.

"Book's" Got "La Grippe."

The Indianapolis *Sun* says: "Chas. A. Bookwalter, better known as "Book," adjutant-general of the Sons of Veterans and clerk of the printing bureau, is at home in bed with the "latest agony," and isn't proud of it, either. His superior officer, Secretary-of-state Griffin is also afflicted in a mild way and is taking quinine by the peck measure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

The Secret of Health

is the power to eat, digest and assimilate a proper quantity of wholesome food. This can never be the case while impurities exist in the system. The blood must be purified; it is the vital principle, ramifying through every part of the body. Dr. Tutt's Pills expel all impurities and vitalize the whole system.

A Noted Divine says:

"I have been using Dr. Tutt's Liver Pills the past three months for dyspepsia, weak stomach and nervousness. I never had anything to do me so much good. I recommend them as the best pill in existence, and do all I can to acquaint others with their merits. They are a special blessing."

THE STATE TEACHERS.

The State Association Favors a Compulsory Education Law.

At the session of the State Teachers' association, the following resolutions were adopted without debate:

That we favor a judicious compulsory educational law.

That there should be a standard of proficiency for the county superintendency and that the office should be free from the influence of party politics.

That our schools should be supplied with the best text-books that genius, experience and mechanical skill can produce, and that adoption in all cases should be free from the influence of monopolies.

That we view with gratification the study of pure and wholesome literature by the teachers and pupils of the state, and that the tendency toward a scientific investigation of educational problems by the teachers generally is to be commended.

That the Indiana State Teachers' association should exercise a directing influence in the school legislation of the state.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

Six of the 111 members of the Yale law school are Japanese.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Beauty and Utility.

No more appropriate or usesul Christmas present can be given by a parent to a son or daughter than a Caligraph Type Writer. The time is not far distant when a type writer will be found in every intelligent home. The educational value of a type writer is unquestioned. It assists in learning to spell correctly, and results in a close observation of the construction of sentences, and helps to form the habit of composition. W. E. McDermut is the Fort Wayne agent for the Caligraph, which embraces the latest and best improvements in writing machines. Call and get samples, and see the machine in actual operation. 14-jan1.

The Forum.

A MONTHLY REVIEW OF LIVING SUBJECTS

By the Foremost Writers in the World.

JOHN G. CARLISLE.

THE FORUM has won the highest place reached by any periodical; for it publishes articles by more authoritative writers and by more workers along instructive lines of activity than any other publication. It contains eleven studies of great subjects every month. It is impartial, giving hearings alike to each side. It is financially independent, and it belongs to no sect or party or "interest." It is never sensational, but it aims always to be instructive.

I consider THE FORUM as furnishing the most intelligent and sympathetic audience that a thoughtful writer can find to address in any land.—*Prof. ALEXANDER WINCHELL, of the University of Michigan.*

THE FORUM continues to hold its place as the foremost of our magazines, for the variety, the value, and the weight of its contributions.—*THE NEW YORK TIMES.*

Announcements of forthcoming articles can seldom be made long in advance, for THE FORUM'S discussions are always of problems of present concern. Every such problem that the year 1890 will bring forward will be discussed, whether in politics, or religion, or social science, or practical affairs. The January number will contain a reply by ex-Speaker J. G. CARLISLE to Senator Cullom's recent article on "How the Tariff Affects the Farmer."

Keep an eye on the newspapers and see which of the merchants want your custom and are sufficiently courteous to invite you to call. There is a good deal more in advertising than one may think. It is not only to tell of his goods that a man advertises, but it is also to invite the people who read—the thinking, intelligent people—to pay him a visit and judge for themselves as to the quantity, quality and price of what he offers for sale.

We have no storms of any magnitude; very few hurricanes; no cyclones; no tornadoes; no earthquakes and no floods—surely the best place on earth for all purposes, is Northern Indiana.

A gentleman of this city in pursuit of knowledge, made an investigation of an offer made by certain parties to the effect that for a few dollars a deed and clear title to a suburban lot to Denver could be secured. MAY COMPROMISE!

This Week May Witness the End of the Montana Muddle--The Republican Scheme.

HELENA, Mont., Dec. 31.—This week will probably see a solution of the political difficulty. Both parties were caucussing all day yesterday, but no agreement was reached. The senate, irrespective of party, is in favor of a compromise. The house, on the contrary, will not listen to anything of the kind.

It is positively known that the republican leaders here have telegraphed Senators Sherman and Ingalls whether or not they shall elect senators. If a favorable reply is received they will elect at once, as it will be taken as a promise that the men chosen by the republicans will be seated if sent to Washington.

If Sherman and Ingalls do not advise a move of this kind the election will be postponed for a few days or until the republicans of the United States senate can be canvassed on the subject.

Sheriff Lloyd, the Republican incumbent in Silver Bow county, who has refused to surrender his office to Sullivan, the democrat-elect, met Sullivan yesterday in the Grand Central dining room and commenced to abuse him. Each simultaneously pulled his gun, when two waters seized and held them until friends came and took them away.

DR. PETERS.

The Missionary Said to be Alive and Well.

BERLIN, Dec. 31.—The *Tugeblatt* claims to have information from an undeniable source that Dr. Peters and party are certainly alive and that the doctor and followers are marching between Kenia and Barringo.

LONDON, Dec. 31.—Lord Salisbury's physicians announce that their distinguished patient is suffering from a severe chill.

Dr. W. Oswell Livingstone, the only surviving son of David Livingstone, the famous African explorer, died last night at his home at St. Albans.

Morton C. Fisher, a wealthy Californian, well-known in New York and one of the best known Americans in London, was found dead in his chambers yesterday. Fisher spent Sunday evening at the house of a friend and went home early. He was heard breathing heavily at 11 o'clock yesterday morning and his door was forced open at 1 p. m., when he was found dead.

STRIKING EMPLOYES

Hold a Meeting and Denounce "Scabs" and "Thugs."

PITTSBURG, Dec. 31.—A largely attended meeting of the striking employes of the Pittsburg Traction company was held in the Knights of Labor hall last night, between the hours of midnight and 3 o'clock this morning. The situation was thoroughly discussed and resolutions were adopted condemning the Pittsburg Traction company for importing "scabs" and Pinkerton "thugs" and asking the public to refuse to patronize the road while non-union men were employed.

Superintendent Davis claims this morning that the company has won the day, and that business on the road will proceed without further interruption. The cars are running regularly, and there is very little to indicate that there is a strike on.

BLAINE'S BROTHER.

Death of Prof. M. C. Blaine, at Salem, Oregon.

SALEM, Ore., Dec. 31.—Prof. Melville G. Blaine, principal teacher at the Chemewa Indian training school near Salem, and a brother of Secretary James G. Blaine, died last evening, after a brief illness, at the age of sixty-three. He was a man of rare ability, a fine speaker and an able educator. He came to Oregon in 1876, and had resided here since. He leaves a son. His wife, whom he married in Illinois, died last April. He served in an Illinois regiment through the late war.

A NIHILIST PLOT

To Assassinate the Russian Czar Frustrated.

PARIS, Dec. 31.—The *Le Siecle* publishes a dispatch from St. Petersburg stating that a Nihilist plot to assassinate the czar was recently discovered at the imperial palace. Among those implicated were a number of the inmates of the palace, several of whom were arrested in the passages. One of the conspirators, while resisting arrest, was killed by an officer of the guard.

The Weather.

WASHINGTON, Dec. 31.—For Indiana—Fair, warmer; southerly winds.

A WILD TEAM.

An Exciting Runaway Resulting in Damages and Injuries.

Shortly before noon to-day a team of horses belonging to Farmer S. Snyder, of Lake township ran away on Main street, running at a wild speed in an easterly course.

In front of the Globe a buggy belonging to Kaylor, the brick-yard proprietor, was struck and upset. The vehicle was damaged.

In the wagon drawn by the runaway team were Snyder and wife. Both jumped, the latter receiving injuries of a serious though not dangerous nature.

After running several squares the animals were stopped but not until the wagon was a complete wreck.

The street was lined with vehicles and it is almost a miracle that more injury and damage was not done.

ANOTHER ONE.

Yesterday Mrs. Robt. W. Tapp, with her baby and servant girl, were out riding on East Wayne street. The black pacing horse, which she was driving, became frightened at some evergreen trees, which were standing near the sidewalk, and ran away and all the occupants were thrown out and badly injured. The buggy was smashed to pieces.

THE STANDARD CLUB.

The Hebrew Society Inaugurates the Season's Receptions.

Last evening the Standard club inaugurated the season's receptions at the newly furnished hall and parlors in the Nindo block.

This club has among the finest of social apartments in Indiana, which are fitted up in elegance at a considerable expense.

The inaugural last night was marked for its brilliancy and enjoyable features. The main hall was beautifully decorated. Here fifteen dances were gone through to the strains of Reinke's orchestra.

There were present 150 ladies and gentlemen, and from abroad were noted Miss Hattie Rothschild, Miss Emma Frank, Terre Haute; Miss Clara Ehliel, Miss Minnie Falsenthal, Chicago; Miss Hannah Kraus, Columbia City; Miss Clara Rosenthal, Wabash; Miss Ullman; Titusville, Pa.; Mr. and Mrs. Lehman, Cincinnati; Mr. Ed. Rosenthal, Sig. Folz, Chicago; Max Kraus, Columbia City.

The committees were as follows:

Reception Committee—Louis Hirsh, A. Mergeatheim, J. Greensfelder, I. Strass, Chas. Falk.

Floor Managers—A. J. Friend, Max B. Fisher, Ben Lehman, Theo. Frank, H. Freiburger.

The event was undoubtedly the most successful in the history of the club.

BAD DOGS.

The Canines Kill Twenty Sheep Belonging to Farmer Jones.

Dogs did bad work in Jackson township last week.

The canines out there have a love for sheeps' blood and have been murdering the innocent animals for some time.

One night last week they got into the sheep stable of Mr. John Jones, a farmer, and killed twenty sheep, valued at $70. The neighborhood is aroused and the canines found guilty of committing these midnight deeds of blood will be shot.

Three dogs, which were probably guilty of killing sheep, were shot in St. Joe township this week.

LA GRIPPE!

The Malady Enters the Home of Vice-President Morton--Its Work Elsewhere.

WASHINGTON, Dec. 31.—La Grippe has invaded the residence of the vice-president, and Mrs. Morton has for three days been suffering from a most aggrevating attack of the Russian malady. Until yesterday afternoon, she was confined to her bed.

ALBANY, N. Y., Dec. 31.—The grip has spread rapidly here in the last few days and the doctors are hard pressed to keep up with the constant demands upon them. The public departments are run with only partial forces. In the capitol there are many empty desks. Chancellor Pierson was taken ill with the disease.

Mr. Ruggles is down with the grip and pneumonia. The secretary of state, Mr. Cook, was stricken with the influenza and was taken back to Rochester yesterday. Several heads of departments are sick. The doctors here are certain that a majority of the cases are of the genuine Russian type.

KINGSTON, N. Y., Dec. 31.—Physicians in this city report a large number of the grip. One third of the composing force of the *Evening Freeman* is down with the LaGrippe.

WARSAW, N. Y., Dec. 31.—The influenza epidemic has appeared only sporadically among the adults of the Western New York salt fields. Among children however, it is prevalent, and in these cases the fever runs high accompanied by delirium.

NEWBERG, N. Y., Dec. 31.—The grip is here. Among the prominent citizens who have had it are District Attorney Hirschberg, Alderman C. S. Gibbs, Prof. C. S Moscow, David A. Scott and Homer Ramsdell. Dr. Smith Ely says he is kept busy with several cases and another doctor is reported to have forty cases. Many children are afflicted with it. It is reported also that every editor but one in Port Jervis has it.

CARLISLE, Pa., Dec. 31.—The Russian influenza has appeared in the Cumberland valley. Fully 500 cases are reported. In this city the physicians say there are 125 cases, but few of them are serious natures. No deaths have been reported as yet.

JERSEY CITY, N. J., Dec. 31.—The grip caught on here and has spread over the entire city. There is scarcely a dwelling where one or more inmates are not suffering from its attack or some ailment which they term the grip.

BOSTON, Dec. 31.—According to the records at the office of the board of health there have been two deaths of adults in this city since Saturday, caused by influenza in conjunction with other disease, making a total of six. It is the opinion, nevertheless, that "la grippe" has begun to abate.

The report comes from the various public institutions on the island that the malady has obtained a secure foothold among the inmates and is spreading. There are 100 severe cases now in the hospital and seventy-five or more outside. Less than a half dozen cases have been reported in the police department since last week. Of the 900 postoffice employes, 100 are off duty.

BRIDGEPORT, Conn., Dec. 31.—All the physicians in the city are kept busy these days by patients suffering from the grip in the neighboring town of Fairfield. On Sunday the Rev. Mr. Child was attacked with it in his church, while leading his congregation in prayer. He could not proceed, and dismissed them then and there.

LONDON, Dec. 31.—The influenza has made its appearance in this city. A number of the government officers have attacked by the disease.

TRENTON, N. J., Dec. 31.—Every physician in the city is busy attending patients afflicted by the influenza. Very few families have escaped the epidemic but only two or three serious cases are reported. Even some of the physicians themselves have succumbed to it and are confined to their homes. One fatal case was reported last evening. It was that of Michael Mulhall, twenty-six years old.

BIRMINGHAM, Conn., Dec. 31.—The twelve physicians of the towns of Derby, Shelton and Ausonia report that between 100 and 200 cases of la grippe have appeared since Saturday night. It has appeared with great effect among railroad employes and several of the trains are compelled to run short handed.

MRS. MORTON HASN'T THE LA GRIPPE.

WASHINGTON, Dec. 31.—Inquiry at the home of Vice-President Morton develops the fact that the vice-president is not sick. Mrs. Morton has been confined to her bed for several days, but not with influenza, as reported. Mrs. Morton expects to assist at the president's reception to-morrow, and to preside over the vice-president's reception as well.

Conductor V. D. Nolan, Fireman Webb and Engineer McCullough, of Logansport, were slightly injured. The engine was demolished. A misunderstanding of orders caused the wreck.

KEEN EYED JUSTICE.

After a Long Time it Searches Out a Crook Who Operated Here.

Quite a while ago T. H. Hodge, of Chicago, came to this city and tried to negotiate of I. Lauferty, the banker, a loan of $500, offering as security a note mortgage for $1,500 on property of John McConnell, of Chicago.

Inquiry of a Chicago attorney revealed that the paper held by Hodge was not good. The rascal slipped out before he could be arrested. Authorities at Chicago were notified and last night Sheriff Viberg received a telegram from Chicago to the effect that Hodge was under arrest.

The sheriff left for that place on the first train and will probably return with his prisoner to-night on train 8.

Prosecutor Robinson says he has a case against his man.

Miss Nellie Deitrick, aged eighteen years and ten months, died at 12 o'clock Thursday, the 26th inst., at her home near Chamberlain P. ATTACKED BY ROWDIES.

A Party of Young Workmen Assaulted Without Warning.

The police court this morning was of more than ordinary interest and there was a large crowd in the lobby to take in the proceedings.

Nicholas Gossert and Herman Hilker, two young fellows, were arraigned on a charge of assault and battery on Joseph Junck and Joseph Wilhelm, employes of Olds' wheel works. The prosecuting witnesses testified that they were in a party consisting of Peter and Jacob Junck and Mat Renen and John Schuh, fellow employes, who were going home from work last evening, when they were assaulted at the corner of Lafayette and Virginia streets.

The witnesses bore marks of having been roughly handled and several cuts attest to the fact that knives were used. The mayor sent Gossert to jail for sixteen days and Hilker was held under $100 bonds until Friday, when his case will come up for hearing. In the meantime an effort will be made to arrest the rest of the assaulters.

Henry Wilhelm, who for a time was a sewing machine agent, was up on charge of assault and battery on his wife. Henry admitted that he had been drinking heavily. The mayor gave him a lecture and assessed a fine of $25 and costs or thirty-six days in jail. The prisoner went to jail while his friends were making an effort to raise the colatteral for his release.

James McGuire and James O'Brien were arrested by Officer Lapp for drunkenness. Both went to jail.

A stranger from Bluffton was arrested by Officer Tremmel on a charge of nuisance. The affidavit was changed to intoxication and the fine was paid.

A Paternity Suit.

Louis Schius, a farmer living near Huntertown, is in jail on a charge of being the parent of his stepdaughter's babe. 'Squire France will hear the case next Friday. The girl claims that he accomplished her disgrace by force. The girl and her child are in the hospital.

TUESDAY, DEC. 31, 1889

GOOD bye, old year.

SWEAR off the rum habit.

DROP all of your bad habits with the dawning of the new year.

THE year 1889 dies with the striking of the hour of twelve to night.

EX-GOVERNOR FOSTER, of Ohio, wants to be appointed minister to Russia.

RESOLVE to live a better life with the year to come than you have in the past.

MRS. JEFFERSON DAVIS will presently go to Kansas to live with her married daughter.

MAY the new year be a happy and prosperous one to every reader of THE SENTINEL.

WE are in the nines in the calendar of years, and will remain in them for one hundred and ten years.

IT IS said that the negroes of Georgia, who twenty-five years were slaves, now possess $20,000,000 worth of property.

THOMAS G. SHEARMAN, of New York, has offered through the American economic association a prize of $250 for the best essay on "State and Local Taxation of Property in the United States."

CALVIN S. BRICE tells a Cincinnati reporter that he has in the past belonged to the Pendleton element of the democratic party in Ohio, but he congratulates himself that now there are no factions in the party.

THE Washington correspondent of the Philadelphia *Record* tells of a member of the present house whose seat in the congress of the United States cost him $75,000 in cold cash. His name is Frederick G. Neidringhaus, and he comes from St. Louis. He is the president of an extensive rolling mill in that city, and is an ardent protectionist. If he has his way in revising the tariff he expects to get his money back.

COLONEL DANIEL S. LAMONT, when asked to express himself on politics as a career for young men, said: "The time for a man to enter politics, to take an interest in government, and, so far as he can, to influence party action for the right in whatever station he may occupy, is when he is twenty-one. The time for a man to enter politics for the purpose of seeking office and engaging in office-holding as a life work is some time after he has passed the limit of three score years and ten—in my judgment."

A LARGER number of patents were issued during the past year than ever before in the history of the patent office. The total number issued was 23,360. In 1885 the issue was within twenty-eight patents of being as large. Last year there were 19,585 patents issued. An interesting statement has been prepared at the patent office showing the number of patents issued each year from 1836. Fifty-three years ago the number of patents issued in one year was 109, and from that time down to the present nearly each year shows an increase in the number of patents issued as compared with the previous year.

PROFESSOR EDWARD ORTON, state geologist, of Ohio, estimates that the natural gas fields of Ohio and Indiana will be exhausted within nine years, at the present rate of consumption, and that it will require thousands of years to again accumulate in sufficient quantities to be used. Professor Orton has made a very careful study of the natural gas fields in Ohio, and is as able to express a scientific opinion as any one who has written on the question, but natural gas is a product so new and so difficult of satisfactory explanation that this opinion will have little weight with the people who are investing their money and consulting their convenience by substituting gas for coal.

WAS ADAM THE FIRST MAN.

Rev. J. F. Barnes, of the Church of Our Father, of Chicago, preached a sermon last Sunday in which he held that it could not be proven by the Bible that Adam was the first man on this earth. In substance he spoke as follows, the quotations being from the report of the Chicago *Times* of his sermon:

"The idea that Adam was the first man can not be sustained from the Bible. Moses in Genesis spoke of Adam as the first man only in a certain sense as the progenitor of the Hebrew people. It was evident from the Bible that Moses recognized the existence of other peoples, although he was evidently somewhat mystified about them. When he said, 'Then began man to call upon the name of the Lord,' he clearly meant the term man to signify the representative of the Hebrew people or the Lord's people. In the sixth chapter of Genesis we are told that the sons of God saw the daughters of men; that they were fair, and took them to wife of all that they would. Now these "sons of God" were evidently the sons of the Hebrew race, but from whence came the "daughters of men?"

"From the very beginning of creation the biblical account in Genesis admitted enough to destroy the tradition that Adam was the first man. To Adam and Eve were born two sons. Cain killed his brother Abel and fled the country. There is no account of any other children and no account of a second marriage. Cain married after he went to the land of Nod, where he built a city. A son named Enoch was born to him, and Cain then built another city in honor of his son and called it after him. This was a fortified city. Why should he have fortified it except from the apprehension that it might be attacked from without? Attacked by whom? Undoubtedly by other tribes of people. If the evidences in Genesis were closely examined and construed together there was found good ground for the belief that there were pre-Adamite tribes and that Adam himself was one of them. Upon the basis of the laws of nature alone Adam could not have been the first man. There was no retrogression in God's laws."

The argument of Rev. Barnes is an old one, and has been refuted by learned divines and Biblical scholars time and time again. Hebrew history, which is authentic and reliable, proves that Adam was the first man created and the greatest historians and thinkers of the present and past admit it as a proven and established fact. Some fellow will be attempting to prove afterawhile that Julius Ceasar and Napoleon Bonaparte never lived.

SAM SMALL.

How the Ladies Came to Secure Him for His Lecture at the Academy To-Morrow Evening.

The Women's Christian Temperance union offer a grand treat to-morrow evening at the Academy to the citizens of Fort Wayne. It is the lecture of Rev. Sam Small on the subject, "From Bar-room to Pulpit."

The securing of this noted orator was in the nature of a Christmas gift, and was brought about in this way: On Thursday Mrs. James E. Graham, the president of the Women's Christian Temperance union, received the following letter from Rev. Small:

TIFFIN, O., Dec. 25, 1889.

In my schedule of dates, I find Wednesday evening, January 1, is vacant, I presume on the bureau's theory that I would want "rest" on that day. But of all other days in the year that is the one on which I would prefer to do something for the Master and mankind. As I will be near to Fort Wayne and have never lectured there, I have thought to offer to come that day and give my lecture, "From Bar Room to Pulpit" that evening, provided your union would secure a place for the lecture without cost to themselves or myself, and make the lecture FREE TO ALL.

Wishing you a "merry Christmas" and God's blessing upon you, the union, and its work,

I am yours sincerely,
SAM. W. SMALL.

Mrs. Graham immediately called a meeting of the union. It was decided to accept Mr. Small's kind offer and he was telegraphed to come.

It is needless to say that the speaker will have an audience. The Academy will be packed from door to stage and it will be a great New Years night for the temperance cause in this city.

Sam Small is one of the most eloquent and interesting platform speakers in the nation. He is the companion of Sam Jones. Years ago they were drunkards together in the state of Georgia. They signed the pledge and reformed, and have lived sober, useful lives ever since. Sam Small, like his former companion, Sam Jones, tells plain truths in a plain way and has achieved a national reputation as a lecturer.

BILLIONS OF ANCESTORS.

Some Figures as to Our Progenitors That Are Startling.

Did you ever think, says the St. Louis *Republic*, how many male and female ancestors were required to bring you into the world? First, it was necessary that you should have a father and mother—that makes two human beings. Each of them must have had a father and mother—that makes four more human beings. Again, each of them must have had a father and mother—making eight more human beings.

So we go back to the time of Jesus Christ—fifty-six generations. The calculation thus resulting shows that 139,234,017,489,434,976 births must have taken place in order to bring you into this world—you, who read these lines. All this since the birth of Christ—not since the beginning of time. According to Proctor, if from a single pair, for 5,000 years, each husband and wife had married at twenty-one years of age and there had been no deaths, the population of the earth would be 2,199,915 followed by 144 ciphers. It would require to hold this population a number of worlds the size of this, equal to 3,166,526 followed by 125 ciphers. The human mind shrinks in contemplating such immense numbers.

A ROLLING.

The Old City Mills in Full Operation Again.

In looking over the many old and new manufacturing interests of this city, we cannot help but to also take in consideration the flour milling industry of which the newly remodeled mill of C. Tresselt & Sons, known for over forty years as the City Mills, is a part. Early this spring, Messrs. Tresselt & Sons began with the tearing out of all the old machinery, bins, floors, etc., in this building then used as elevator and flour warerooms. Ton after ton of old iron machinery were taken out, and load after load of old lumber removed to make room for new machinery. A brick addition for boiler and engine room was built and the outside of the mill building was quite changed in appearance by a covering of corrugated iron on both sides and roof, making it both attractive and fire-proof. Last June the contract for the new milling machinery was let to the Nordyke & Marmon company, of Indianapolis, who at once sent a force of competent mill-wrights, under the charge of Mr. A. A. Croft, to set up the plant, which now is in full operation. The power plant consists of a new Atlas boiler, sixty inches by fourteen feet in dimensions, sixty-two flues fired by natural gas and a new Buckeye engine 100-horse power. In basement are the bottoms of the twenty-seven elevators that carry the stock from and to the different machines. On the grinding floor we notice on the side seven double sets of the celebrated Nordyke & Marmon rolls, on the other three Eureka flour packers, manufactured at Silver Creek, N. Y. On the second floor are the flour chests, three in number, stockhoppers, two of the renowned Smith purifiers, made at Jackson, Mich., wheat cleaning machines, bran and feed dusters, etc. On the third floor, to one side, close to the peek of the roof, are seven large dust drums, known as the Cyclone dust collectors, on the other, the flour scalpers and dressers, sixteen in number, driven and connected by chain belts, which, when in operation, present quite a pretty sight. The work of spouting, etc., shows that no money nor care was spared to make the job a first-class one, and we may well say that the new City mills is second to none. The mill has a capacity of 150 to 200 barrels per day and is now in full operation in filling orders for export. The brands of flour manufactured for home trade are known as the City Mills' Hungarian process and Silver Dollar patent, and are for sale by all grocers. This new industry adds again to the manufacturing interests of our growing city and speaks well for the energy and enterprise of the firm, consisting of C. Tresselt, who for over forty years has been a resident of our city and has been in active business all this time, and his sons, Oscar W. Tresselt, an experienced miller, who spent two years in Europe, especially Hungary, to learn his trade, H. C. Tresselt and Fred T. Tresselt.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

The Silver Dollar.

The Purchasing Power of Money. The Price of Necessaries, Luxuries and Evils.

One dollar, be it silver or greenback, will buy enough bread to last a family several days, enough bad whiskey to get one man drunk and disorderly and earn him a ten dollar fine, enough rope to hang a horse-thief, enough arsenic to poison one hundred rats, enough coal to make a very hot fire, and, above all, and better than all, enough Rogers' Royal Nervine to cure many most serious diseases. The beauty of this remedy is, that it can hurt no one, that it is essentially a tonic and nerve-food, that it improves the stomach's tone while it builds up the brain and nerves. Take the "dollar of your daddies" and make a bee line for the drug store. You need it and your dollar will get it, and it will earn a heavy margin of profit.

CLERKS TRIUMPHANT.

Clothing Clerks Induce Their Employers to Close Their Stores at Six O'clock.

Commencing the first of the year, the clothing stores of the city will close at 6 p. m., except on pay-days and Saturdays.

This departure was brought about after continued effort of the clerks, who consider ten hours a day's work. The proprietors granted their employes' request without a murmur, when Mr. Louis Schirmeyer personally presented the clerk's side of the case to them.

There is no organized body of clerks, and this action was purely independent.

THE MAIL SERVICE!

Uncle Sam is Rich and the Railroads Whack it to Him—Gossip From the Busy Centers.

The postmaster general has asked congress to appropriate $21,106,275 for carrying the mails next year, and $2,543,000 in addition for the rent of the postal cars in which the mails are carried.

Of the $21,000,000 above mentioned not less than $10,000,000 will be paid to the comparatively small number of large roads that haul heavy mails in postal cars and get the extra $2,500,000 for the use of the cars. The other $11,000,000 will be divided among the great number of minor roads that do not get any of the extra compensation for the use of cars.

The present schedule of payments to the roads was fixed in 1873. The rate of pay then fixed for carrying the mails by weight has been reduced on two occasions, in 1876 and 1878, the total of both reductions being 14.5 per cent. For eleven years there has been no change in the rate by weight; in the rate of pay for the use of the postal cars there has been no change since the present schedule was adopted sixteen years ago, and the total amount paid for the use of the cars has doubled since 1880, previous to which time it was not separately reported.

The Statistical Abstract of the United States contains a tabular statement of the freight rates per ton per mile on a considerable number of roads. This shows that the average charge was 1.803 cents in 1873 and 0.974 in 1887. On the leading lines of the country, then, fairly representing all the roads that get about half of the weight pay and the whole of the postal car pay, the charge to private shippers has been reduced one-half while the charge to the government has been reduced one-seventh.

C. A. Smith, of the Jenney works, was married last Saturday evening to Miss Della Broxom.

Willam Rhodes, of the Pittsburg machine shops, is recovering from an illness of four weeks.

Wm. F. Gebhard, formerly of the Bass works, but lately working at New Orleans, has taken a position at the Pittsburg machine shops.

The employes of the Olds wheel works will see in our local columns the account of the free-for-all fight which took place last night at the works.

E. G. Pierce, machinist at the Pittsburg shops, had his arm broken at the wrist yesterday while at work around his lathe and will be off duty for some time.

R. B. S. York, who has been appointed passenger agent of the Wabash on the Pacific slope, with headquarters at San Francisco, years ago was a reporter on the Indianapolis *Journal*, and later was with Colonel Ruckle when he was sheriff and afterward clerk of the criminal court.

The establishing of car-service association to control all important railroad junction points will, doubtless, lead to the building of elevators and storehouses, and more tracks at all important railroad points, inaugurating a new method of doing business, and one which promises good results.

It is reported that steps to oppose the eight-hour movement proposed by the American Federation of Labor will be taken at the meeting of the National Builders' association in St. Louis next month. It is also understood that a firm stand against the movement will be taken by the builders on May 1 if the employes attempt to enforce it.

The Pennsylvania people expect to have the cut-off line, which will run from Downington to Morrisville, Pa., which will be fifty-three miles in length, completed by December 1, 1890. It is stated that the relief which this improvement will afford to the New York and Philadelphia divisions will be equal to fully 50 per cent. of the gross traffic now being condemned.

J. D. Byanski, machinist at the Pittsburg shops, while at work yesterday afternoon, met with an accident by which the nail on one of his thumbs was completely torn from that member. The accident was a very painful one, but Mr. Byanski scarcely flinched as he went to the office of Foreman Fitspatrick, where Clerk Christ Daseler placed a bandage around the wound. The injured employe will be off duty for some time.

The following appointments have been made by the Ohio, Indiana and Western road: J. A. Shirely, superintendent of telegraph; C. N. Atkinson, car accountant; J. H. M. Claggett, cashier and paymaster. Mr. Palmerton has for twenty years been a conductor on the road, and Mr. Shirely chief train dispatcher for the same period. Mr. Claggett was car accountant, and was in the car when Superintendent Wilson and Trainmaster Cummins were killed. Mr. Atkinson will retain his place as chief clerk to the general manager.

"Book's" Got "La Grippe."

The Indianapolis *Sun* says: "Chas. A. Bookwalter, better known as "Book," adjutant general of the Sons of Veterans and clerk of the printing bureau, is at home in bed with the "latest agony," and isn't proud of it, either. His superior officer, Secretary-of-state Griffin is also afflicted in a mild way and is taking quinine by the peck measure.

THAT fierce Apache, Geronimo, who is confined at Mount Vernon Barracks, Alabama, has learned to play the banjo. His guard has less trouble in preventing his running away than in keeping him from getting drunk. The savage vagabond drowns his grief in rum at every opportunity.

After diphtheria, scarlet fever, or pneumonia, Hood's Sarsapilla will give strength to the system, and expel all poison from the blood.

The influenza seems to have taken the place of "the elixir of life."

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

THE STATE TEACHERS.

The State Association Favors a Compulsory Education Law.

At the session of the State Teachers' association, the following resolutions were adopted without debate:

That we favor a judicious compulsory educational law.

That there should be a standard of proficiency for the county superintendency and that the office should be free from the influence of party politics.

That our schools should be supplied with the best text-books that genius, experience and mechanical skill can produce, and that adoption in all cases should be free from the influence of monopolies.

That we view with gratification the study of pure and wholesome literature by the teachers and pupils of the state, and that the tendency toward a scientific investigation of educational problems by the teachers generally is to be commended.

That the Indiana State Teachers' association should exercise a directing influence in the school legislation of the state.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Beauty and Utility.

No more appropriate or useful Christmas present can be given by a parent to a son or daughter than a Caligraph Type Writer. The time is not far distant when a type writer will be found in every intelligent home. The educational value of a type writer is unquestioned. It assists in learning to spell correctly, and results in a close observation of the construction of sentences, and helps to form the habit of composition. W. E. McDermut is the Fort Wayne agent for the Caligraph, which embraces the latest and best improvements in writing machines. Call and get samples, and see the machine in actual operation. 14-jan1.

The Forum.

A MONTHLY REVIEW OF LIVING SUBJECTS

By the Foremost Writers in the World.

JOHN G. CARLISLE.

THE FORUM has won the highest place reached by any periodical; for it publishes articles by more authoritative writers and by more workers along instructive lines of activity than any other publication. It contains eleven studies of great subjects every month. It is impartial, giving hearings alike to each side. It is financially independent, and it belongs to no sect or party or "interest." It is never sensational, but it aims always to be instructive.

I consider THE FORUM as furnishing the most intelligent and sympathetic audience that a thoughtful writer can find to address in any land.—*Prof. ALEXANDER WINCHELL, of the University of Michigan.*

THE FORUM continues to hold its place as the foremost of our magazines, for the variety, the value, and the weight of its contributions.—*THE NEW YORK TIMES.*

Announcements of forthcoming articles can seldom be made long in advance, for THE FORUM'S discussions are always of problems of present concern. Every such problem that the year 1890 will bring forward will be discussed, whether in politics, or religion, or social science, or practical affairs. The January number will contain a reply by ex-Speaker J. G. CARLISLE to Senator Cullom's recent article on "How the Tariff Affects the Farmer."

Keep an eye on the newspapers and see which of the merchants want your custom and are sufficiently courteous to invite you to call. There is a good deal more in advertising than one may think. It is not only to tell of his goods that a man advertises, but it is also to invite the people who read—the thinking, intelligent people—to pay him a visit and judge for themselves as to the quantity, quality and price of what he offers for sale.

It has been demonstrated that Northern Indiana is one of the most favored regions on the globe, for the cold wave failed to materialize on reaching this latitude. We have no storms of any magnitude; very few hurricanes; no cyclones; no tornadoes; no earthquakes and no floods—surely the best place on earth for all purposes, is Northern Indiana.

A gentleman of this city in pursuit of knowledge, made an investigation of an offer made by certain parties to the effect that for a few dollars a deed and clear title to a suburban lot to Denver could be secured. The gentleman was notified by a friend there that the lots in question are thirty miles from Denver, situated upon an almost inaccessible eminence on the mountain side, and that the scheme is a swindle. Keep your dollars at home.

MAY COMPROMISE!

This Week May Witness the End of the Montana Muddle--The Republican Scheme.

HELENA, Mont., Dec. 31.—This week will probably see a solution of the political difficulty. Both parties were caucussing all day yesterday, but no agreement was reached. The senate, irrespective of party, is in favor of a compromise. The house, on the contrary, will not listen to anything of the kind.

It is positively known that the republican leaders here have telegraphed Senators Sherman and Ingalls whether or not they shall elect senators. If a favorable reply is received they will elect at once, as it will be taken as a promise that the men chosen by the republicans will be seated if sent to Washington.

If Sherman and Ingalls do not advise a move of this kind the election will be postponed for a few days or until the republicans of the United States senate can be canvassed on the subject.

Sheriff Lloyd, the Republican incumbent in Silver Bow county, who has refused to surrender his office to Sullivan, the democrat-elect, met Sullivan yesterday in the Grand Central dining room and commenced to abuse him. Each simultaneously pulled his gun, when two waiters seized and held them until friends came and took them away.

DR. PETERS.

The Missionary Said to be Alive and Well.

BERLIN, Dec. 31.—The *Tageblatt* claims to have information from an undeniable source that Dr. Peters and party are certainly alive and that the doctor and followers are marching between Kenia and Barringo.

LONDON, Dec. 31.—Lord Salisbury's physicians announce that their distinguished patient is suffering from a severe chill.

Dr. W. Oswell Livingstone, the only surviving son of David Livingstone, the famous African explorer, died last night at his home at St. Albans.

Morton O. Fisher, a wealthy Californian, well-known in New York and one of the best known Americans in London, was found dead in his chambers yesterday. Fisher spent Sunday evening at the house of a friend and went home early. He was heard breathing heavily at 11 o'clock yesterday morning and his door was forced open at 1 p. m., when he was found dead.

STRIKING EMPLOYES

Hold a Meeting and Denounce "Scabs" and "Thugs."

PITTSBURG, Dec. 31.—A largely attended meeting of the striking employes of the Pittsburg Traction company was held in the Knights of Labor hall last night, between the hours of midnight and 3 o'clock this morning. The situation was thoroughly discussed and resolutions were adopted condemning the Pittsburg Traction company for importing "scabs" and Pinkerton "thugs" and asking the public to refuse to patronize the road while non-union men were employed.

Superintendent Davis claims this morning that the company has won the day, and that business on the road will proceed without further interruption. The cars are running regularly, and there is very little to indicate that there is a strike on.

BLAINE'S BROTHER.

Death of Prof. M. C. Blaine, at Salem, Oregon.

SALEM, Ore., Dec. 31.—Prof. Melville G. Blaine, principal teacher at the Chemowa Indian training school near Salem, and a brother of Secretary James G. Blaine, died last evening, after a brief illness, at the age of sixty-three. He was a man of rare ability, a fine speaker and an able educator. He came to Oregon in 1876, and had resided here since. He leaves a son. His wife, whom he married in Illinois, died last April. He served in an Illinois regiment through the late war.

A NIHILIST PLOT

To Assassinate the Russian Czar Frustrated.

PARIS, Dec. 31.—The *Le Siecle* publishes a dispatch from St. Petersburg stating that a Nihilist plot to assassinate the czar was recently discovered at the imperial palace. Among those implicated were a number of the inmates of the palace, several of whom were arrested in the passages. One of the conspirators, while resisting arrest, was killed by an officer of the guard.

The Weather.

WASHINGTON, Dec. 31.—For Indiana—Fair, warmer; southerly winds.

A WILD TEAM.

An Exciting Runaway Resulting in Damages and Injuries.

Shortly before noon to-day a team of horses belonging to Farmer S. Snyder, of Lake township ran away on Main street, running at a wild speed in an easterly course.

In front of the Globe a buggy belonging to Kaylor, the brick-yard proprietor, was struck and upset. The vehicle was damaged.

In the wagon drawn by the runaway team were Snyder and wife. Both jumped, the latter receiving injuries of a serious though not dangerous nature.

After running several squares the animals were stopped but not until the wagon was a complete wreck.

The street was lined with vehicles and it is almost a miracle that more injury and damage was not done.

ANOTHER ONE.

Yesterday Mrs. Robt. W. Tapp, with her baby and servant girl, were out riding on East Wayne street. The black pacing horse, which she was driving, became frightened at some evergreen trees, which were standing near the sidewalk, and ran away and all the occupants were thrown out and badly injured. The buggy was smashed to pieces.

THE STANDARD CLUB.

The Hebrew Society Inaugurates the Season's Receptions.

Last evening the Standard club inaugurated the season's receptions at the newly furnished hall and parlors in the Nindo block.

This club has among the finest of social apartments in Indiana, which are fitted up in elegance at a considerable expense.

The inaugural last night was marked for its brilliancy and enjoyable features. The main hall was beautifully decorated. Here fifteen dances were gone through to the strains of Reinke's orchestra.

There were present 150 ladies and gentlemen, and from abroad were noted Miss Hattie Rothschild, Miss Emma Frank, Terre Haute; Miss Clara Ehliel, Miss Minnie Falsenthal, Chicago; Miss Hannah Kraus, Columbia City; Miss Clara Rosenthal, Wabash; Miss Ullman; Titusville, Pa.; Mr. and Mrs. Lehman, Cincinnati; Mr. Ed. Rosenthal, Sig. Folz, Chicago; Max Kraus, Columbia City.

Floor Managers—A. J. Friend, Max B. Fisher, Ben Lehman, Theo. Frank, H. Freiburger.

The event was undoubtedly the most successful in the history of the club.

BAD DOGS.

The Canines Kill Twenty Sheep Belonging to Farmer Jones.

Dogs did bad work in Jackson township last week.

The canines out there have a love for sheeps' blood and have been murdering the innocent animals for some time.

One night last week they got into the sheep stable of Mr. John Jones, a farmer, and killed twenty sheep, valued at $70. The neighborhood is aroused and the canines found guilty of committing these midnight deeds of blood will be shot.

Three dogs, which were probably guilty of killing sheep, were shot in St. Joe township this week.

LA GRIPPE!

The Malady Enters the Home of Vice-President Morton--Its Work Elsewhere.

WASHINGTON, Dec. 31.—La Grippe has invaded the residence of the vice-president, and Mrs. Morton has for three days been suffering from a most aggravating attack of the Russian malady. Until yesterday afternoon, she was confined to her bed.

ALBANY, N. Y., Dec. 31.—The grip has spread rapidly here in the last few days and the doctors are hard pressed to keep up with the constant demands upon them. The public departments are run with only partial forces. In the capitol there are many empty desks. Chancellor Pierson was taken ill with the disease.

Mr. Ruggles is down with the grip and pneumonia. The secretary of state, Mr. Cook, was stricken with the influenza and was taken back to Rochester yesterday. Several heads of departments are sick. The doctors here are certain that a majority of the cases are of the genuine Russian type.

KINGSTON, N. Y., Dec. 31.—Physicians in this city report a large number of the grip. One third of the composing force of the *Evening Freeman* is down with the LaGrippe.

WABSAW, N. Y., Dec. 31.—The influenza epidemic has appeared only sporadically among the adults of the Western New York salt fields. Among children however, it is prevalent, and in these cases the fever runs high accompanied by delirium.

NEWBURG, N. Y., Dec. 31.—The grip is here. Among the prominent citizens who have had it are District Attorney Hirschberg, Alderman C. S. Gibbs, Prof. C. S Moscow, David A. Scott and Homer Ramsdell. Dr. Smith Ely says he is kept busy with several cases and another doctor is reported to have forty cases. Many children are afflicted with it. It is reported also that every editor but one in Port Jervis has it.

CARLISLE, Pa., Dec. 31.—The Russian influenza has appeared in the Cumberland valley. Fully 500 cases are reported. In this city the physicians say there are 125 cases, but few of them are serious natures. No deaths have been reported as yet.

JERSEY CITY, N. J., Dec. 31.—The grip caught on here and has spread over the entire city. There is scarcely a dwelling where one or more inmates are not suffering from its attack or some ailment which they term the grip.

BOSTON, Dec. 31.—According to the records at the office of the board of health there have been two deaths of adults in this city since Saturday, caused by influenza in conjunction with other disease, making a total of six. It is the opinion, nevertheless, that "la grippe" has begun to abate.

The report comes from the various public institutions on the island that the malady has obtained a secure foothold among the inmates and is spreading. There are 100 severe cases now in the hospital and seventy-five or more outside. Less than a half dozen cases have been reported in the police department since last week. Of the 900 post-office employes, 100 are off duty.

BRIDGEPORT, Conn., Dec. 31.—All the physicians in the city are kept busy these days by patients suffering from the grip in the neighboring town of Fairfield. On Sunday the Rev. Mr. Child was attacked with it in his church, while leading his congregation in prayer. He could not proceed, and dismissed them then and there.

LONDON, Dec. 31.—The influenza has made its appearance in this city. A number of the government officers have attacked by the disease.

TRENTON, N. J., Dec. 31.—Every physician in the city is busy attending patients afflicted by the influenza. Very few families have escaped the epidemic but only two or three serious cases are reported. Even some of the physicians themselves have succumbed to it and are confined to their homes. One fatal case was reported last evening. It was that of Michael Mulhall, twenty-six years old.

BIRMINGHAM, Conn., Dec. 31.—The twelve physicians of the towns of Derby, Shelton and Ansonia report that between 100 and 200 cases of la grippe have appeared since Saturday night. It has appeared with great effect among railroad employes and several of the trains are compelled to run short handed.

MRS. MORTON HASN'T THE LA GRIPPE.

WASHINGTON, Dec. 31.—Inquiry at the home of Vice-President Morton develops the fact that the vice-president is not sick. Mrs. Morton has been confined to her bed for several days, but not with influenza, as reported. Mrs. Morton expects to assist at the president's reception to-morrow, and to preside over the vice-president's reception as well.

Conductor V. D. Nolan, Fireman Webb and Engineer McCullough, of Logansport, were slightly injured. The engine was demolished. A misunderstanding of orders caused the wreck.

KEEN EYED JUSTICE.

After a Long Time It Searches Out a Crook Who Operated Here.

Quite a while ago T. H. Hodge, of Chicago, came to this city and tried to negotiate of I. Lauferty, the banker, a loan of $500, offering as security a note mortgage for $1,500 on property of John McConnell, of Chicago.

Inquiry of a Chicago attorney revealed that the paper held by Hodge was not good. The rascal slipped out before he could be arrested. Authorities at Chicago were notified and last night Sheriff Viberg received a telegram from Chicago to the effect that Hodge was under arrest.

The sheriff left for that place on the first train and will probably return with his prisoner to-night on train 8.

Prosecutor Robinson says he has a case against his man.

Miss Nellie Deitrick, aged eighteen years and ten months, died at 12 o'clock Thursday, the 26th inst., at her home near Chamberlain P. The Karl Gardner company, who were to have appeared at the Temple Saturday night, were in the fatal wreck on the Chesapeake and Ohio railroad in West Virginia, the other day, and it was badly crippled, narrowly escaping with their lives.

They have cancelled their date in this city as will be seen by the following telegram to Manager J. H. Simonson:

ATTACKED BY ROWDIES.

A Party of Young Workmen Assaulted Without Warning.

The police court this morning was of more than ordinary interest and there was a large crowd in the lobby to take in the proceedings.

Nicholas Gossert and Herman Hilker, two young fellows, were arraigned on a charge of assault and battery on Joseph Junck and Joseph Wilhelm, employes of Olds' wheel works. The prosecuting witnesses testified that they were in a party consisting of Peter and Jacob Junck and Mat Renon and John Schub, fellow employes, who were going home from work last evening, when they were assaulted at the corner of Lafayette and Virginia streets.

The witnesses bore marks of having been roughly handled and several cuts attest to the fact that knives were used. The mayor sent Gossert to jail for sixteen days and Hilker was held under $100 bonds until Friday, when his case will come up for hearing. In the meantime an effort will be made to arrest the rest of the assaulters.

Henry Wilhelm, who for a time was a sewing machine agent, was up on charge of assault and battery on his wife. Henry admitted that he had been drinking heavily. The mayor gave him a lecture and assessed a fine of $25 and costs or thirty-six days in jail. The prisoner went to jail while his friends were making an effort to raise the colatteral for his release.

James McGuire and James O'Brien were arrested by Officer Lapp for drunkenness. Both went to jail.

A stranger from Bluffton was arrested by Officer Tremmel on a charge of nuisance. The affidavit was changed to intoxication and the fine was paid.

A Paternity Suit.

Louis Schius, a farmer living near Hunterstown, is in jail on a charge of being the parent of his stepdaughter's babe. 'Squire France will hear the case next Friday. The girl claims that he accomplished her disgrace by force. The girl and her child are in the hospital.

TUESDAY, DEC. 31, 1889.

Good bye, old year.

Swear off the rum habit.

Drop all of your bad habits with the dawning of the new year.

THE year 1889 dies with the striking of the hour of twelve to-night.

EX-GOVERNOR FOSTER, of Ohio, wants to be appointed minister to Russia.

RESOLVE to live a better life with the year to come than you have in the past.

MRS. JEFFERSON DAVIS will presently go to Kansas to live with her married daughter.

MAY the new year be a happy and prosperous one to every reader of THE SENTINEL.

WE are in the nines in the calendar of years, and will remain in them for one hundred and ten years.

IT is said that the negroes of Georgia, who twenty five years were slaves, now possess $20,000,000 worth of property.

THOMAS G. SHEARMAN, of New York, has offered through the American economic association a prize of $250 for the best essay on "State and Local Taxation of Property in the United States."

CALVIN S. BRICE tells a Cincinnati reporter that he has in the past belonged to the Pendleton element of the democratic party in Ohio, but he congratulates himself that now there are no factions in the party.

THE Washington correspondent of the Philadelphia *Record* tells of a member of the present house whose seat in the congress of the United States cost him $75,000 in cold cash. His name is Frederick G. Neidringhaus, and he comes from St. Louis. He is the president of an extensive rolling mill in that city, and is an ardent protectionist. If he has his way in revising the tariff he expects to get his money back.

COLONEL DANIEL S. LAMONT, when asked to express himself on politics as a career for young men, said: "The time for a man to enter politics, to take an interest in government, and, so far as he can, to influence party action for the right in whatever station he may occupy, is when he is twenty-one. The time for a man to enter politics for the purpose of seeking office and engaging in office-holding as a life work is some time after he has passed the limit of three score years and ten—in my judgment."

A LARGER number of patents were issued during the past year than ever before in the history of the patent office. The total number issued was 28,360. In 1885 the issue was within twenty-eight patents of being as large. Last year there were 19,585 patents issued. An interesting statement has been prepared at the patent office showing the number of patents issued each year from 1836. Fifty-three years ago the number of patents issued in one year was 109, and from that time down to the present nearly each year shows an increase in the number of patents issued as compared with the previous year.

PROFESSOR EDWARD ORTON, state geologist, of Ohio, estimates that the natural gas fields of Ohio and Indiana will be exhausted within nine years, at the present rate of consumption, and that it will require thousands of years to again accumulate in sufficient quantities to be used. Professor Orton has made a very careful study of the natural gas fields in Ohio, and is as able to express a scientific opinion as any one who has written on the question, but natural gas is a product so new and so difficult of satisfactory explanation that this opinion will have little weight with the people who are investing their money and consulting their convenience by substituting gas for coal.

WAS ADAM THE FIRST MAN.

Rev. J. F. Barnes, of the Church of Our Father, of Chicago, preached a sermon last Sunday in which he held that it could not be proven by the Bible that Adam was the first man on this earth. In substance he spoke as follows, the quotations being from the report of the Chicago *Times* of his sermon:

"The idea that Adam was the first man can not be sustained from the Bible. Moses in Genesis spoke of Adam as the first man only in a certain sense as the progenitor of the Hebrew people. It was evident from the Bible that Moses recognized the existence of other peoples, although he was evidently somewhat mystified about them. When he said, 'Then began man to call upon the name of the Lord,' he clearly meant the term man to signify the representative of the Hebrew people or the Lord's people. In the sixth chapter of Genesis we are told that the sons of God saw the daughters of men; that they were fair, and took them to wife of all that they would. Now these "sons of God" were evidently the sons of the Hebrew race, but from whence came the "daughters of men?"

"From the very beginning of creation the biblical account in Genesis admitted enough to destroy the tradition that Adam was the first man. To Adam and Eve were born two sons. Cain killed his brother Abel and fled the country. There is no account of any other children and no account of a second marriage. Cain married after he went to the land of Nod, where he built a city. A son named Enoch was born to him, and Cain then built another city in honor of his son and called it after him. This was a fortified city. Why should he have fortified it except from the apprehension that it might be attacked from without? Attacked by whom? Undoubtedly by other tribes of people. If the evidences in Genesis were closely examined and construed together there was found good ground for the belief that there were pre-Adamite tribes and that Adam himself was one of them. Upon the basis of the laws of nature alone Adam could not have been the first man. There was no retrogression in God's laws."

The argument of Rev. Barnes is an old one, and has been refuted by learned divines and Biblical scholars time and time again. Hebrew history, which is authentic and reliable, proves that Adam was the first man created and the greatest historians and thinkers of the present and past admit it as a proven and established fact. Some fellow will be attempting to prove afterawhile that Julius Cæsar and Napoleon Bonaparte never lived.

SAM SMALL.

How the Ladies Came to Secure Him for His Lecture at the Academy To-Morrow Evening.

The Women's Christian Temperance union offer a grand treat to-morrow evening at the Academy to the citizens of Fort Wayne. It is the lecture of Rev. Sam Small on the subject, "From Bar-room to Pulpit."

The securing of this noted orator was in the nature of a Christmas gift, and was brought about in this way: On Thursday Mrs. James E. Graham, the president of the Women's Christian Temperance union, received the following letter from Rev. Small:

TIFFIN, O., Dec. 26, 1889.

In my schedule of dates, I find Wednesday evening, January 1, is vacant, I presume on the bureau's theory that I would want "rest" on that day. But of all other days in the year that is the one on which I would prefer to do something for the Master and mankind. As I will be near to Fort Wayne and have never lectured there, I have thought to offer to come that day and give my lecture, "From Bar Room to Pulpit" that evening, provided your union would secure a place for the lecture without cost to themselves or myself, and make the lecture FREE TO ALL.

Wishing you a "merry Christmas" and God's blessing upon you, the union, and its work,

I am yours sincerely,
SAM. W. SMALL.

Mrs. Graham immediately called a meeting of the union. It was decided to accept Mr. Small's kind offer and he was telegraphed to come.

It is needless to say that the speaker will have an audience. The Academy will be packed from door to stage and it will be a great New Years night for the temperance cause in this city.

Sam Small is one of the most eloquent and interesting platform speakers in the nation. He is the companion of Sam Jones. Years ago they were drunkards together in the state of Georgia. They signed the pledge and reformed, and have lived sober, useful lives ever since. Sam Small, like his former companion, Sam Jones, tells plain truths in a plain way and has achieved a national reputation as a lecturer.

BILLIONS OF ANCESTORS.

Some Figures as to Our Progenitors That Are Startling.

Did you ever think, says the St. Louis *Republic*, how many male and female ancestors were required to bring you into the world? First, it was necessary that you should have a father and mother—that makes two human beings. Each of them must have had a father and mother—that makes four more human beings. Again, each of them must have had a father and mother—making eight more human beings.

So we go back to the time of Jesus Christ—fifty-six generations. The calculation thus resulting shows that 139,234,017,489,434,976 births must have taken place in order to bring you into this world—you, who read these lines. All this since the birth of Christ—not since the beginning of time. According to Proctor, if from a single pair, for 5,000 years, each husband and wife had married at twenty-one years of age and there had been no deaths, the population of the earth would be 2,199,915 followed by 144 ciphers. It would require to hold this population a number of worlds the size of this, equal to 3,166,526 followed by 125 ciphers. The human mind shrinks in contemplating such immense numbers.

A ROLLING.

The Old City Mills in Full Operation Again.

In looking over the many old and new manufacturing interests of this city, we cannot help but to also take in consideration the flour milling industry of which the newly remodeled mill of C. Tresselt & Sons, known for over forty years as the City Mills, is a part. Early this spring, Messrs. Tresselt & Sons began with the tearing out of all the old machinery, bins, floors, etc., in this building then used as elevator and flour warerooms. Ton after ton of old iron machinery were taken out, and load after load of old lumber removed to make room for new machinery. A brick addition for boiler and engine room was built and the outside of the mill building was quite changed in appearance by a covering of corrugated iron on both sides and roof, making it both attractive and fire-proof. Last June the contract for the new milling machinery was let to the Nordyke & Marmon company, of Indianapolis, who at once sent a force of competent mill-wrights, under the charge of Mr. A. A. Croft, to set up the plant, which now is in full operation. The power plant consists of a new Atlas boiler, sixty inches by fourteen feet in dimensions, sixty-two flues fired by natural gas and a new Buckeye engine 100-horse power. In basement are the bottoms of the twenty-seven elevators that carry the stock from and to the different machines. On the grinding floor we notice on the side seven double sets of the celebrated Nordyke & Marmon rolls, on the other three Eureka flour packers, manufactured at Silver Creek, N. Y. On the second floor are the flour chests, three in number, stockhoppers, two of the renowned Smith purifiers, made at Jackson, Mich., wheat cleaning machines, bran and feed dusters, etc. On the third floor, to one side, close to the peck of the roof, are seven large dust drums, known as the Cyclone dust collectors, on the other, the flour scalpers and dressers, sixteen in number, driven and connected by chain belts, which, when in operation, present quite a pretty sight. The work of spouting, etc., shows that no money nor care was spared to make the job a first-class one, and we may well say that the now City mills is second to none. The mill has a capacity of 150 to 200 barrels per day and is now in full operation in filling orders for export. The brands of flour manufactured for home trade are known as the City Mills' Hungarian process and Silver Dollar patent, and are for sale by all grocers. This new industry adds again to the manufacturing interests of our growing city and speaks well for the energy and enterprise of the firm, consisting of C. Tresselt, who for over forty years has been a resident of our city and has been in active business all this time, and his sons, Oscar W. Tresselt, an experienced miller, who spent two years in Europe, especially Hungary, to learn his trade, H. C. Tresselt and Fred T. Tresselt.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past obliges us to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

The Silver Dollar.

The Purchasing Power of Money. The Price of Necessaries, Luxuries and Evils.

One dollar, be it silver or greenback, will buy enough bread to last a family several days, enough bad whiskey to get one man drunk and disorderly and earn him a ten dollar fine, enough rope to hang a horse-thief, enough arsenic to poison one hundred rats, enough coal to make a very hot fire, and, above all, and better than all, enough Rogers' Royal Nervine to cure many most serious diseases. The beauty of this remedy is, that it can hurt no one, that it is essentially a tonic and nerve-food, that it improves the stomach's tone while it builds up the brain and nerves.

Take the "dollar of your daddies" and make a bee line for the drug store. You need it and your dollar will get it, and it will earn a heavy margin of profit.

CLERKS TRIUMPHANT.

Clothing Clerks Induce Their Employers to Close Their Stores at Six O'clock.

Commencing the first of the year, the clothing stores of the city will close at 6 p. m., except on pay-days and Saturdays.

This departure was brought about after continued effort of the clerks, who consider ten hours a day's work. The proprietors granted their employes' request without a murmur, when Mr. Louis Schirmeyer personally presented the clerk's side of the case to them.

There is no organized body of clerks, and this action was purely independent.

THE MAIL SERVICE!

Uncle Sam is Rich and the Railroads Whack It to Him—Gossip From the Busy Centers.

The postmaster general has asked congress to appropriate $21,166,275 for carrying the mails next year, and $2,-543,000 in addition for the rent of the postal cars in which the mails are carried.

Of the $21,000,000 above mentioned not less than $10,000,000 will be paid to the comparatively small number of large roads that haul heavy mails in postal cars and get the extra $2,500,000 for the use of the cars. The other $11,000,000 will be divided among the great number of minor roads that do not get any of the extra compensation for the use of cars.

The present schedule of payments to the roads was fixed in 1873. The rate of pay then fixed for carrying the mails by weight has been reduced on two occasions, in 1876 and 1878, the total of both reductions being 14.5 per cent. For eleven years there has been no change in the rate by weight; in the rate of pay for the use of the postal cars there has been no change since the present schedule was adopted sixteen years ago, and the total amount paid for the use of the cars has doubled since 1880, previous to which time it was not separately reported.

The Statistical Abstract of the United States contains a tabular statement of the freight rates per ton per mile on a considerable number of roads. This shows that the average charge was 1.893 cents in 1873 and 0.974 in 1887. On the leading lines of the country, then, fairly representing all the roads that get about half of the weight pay and the whole of the postal car pay, the charge to private shippers has been reduced one-half while the charge to the government has been reduced one-seventh.

The Wilson minstrels left this morning on the Grand Rapids road for Kalamazoo.

Five of the employes of the Wabash freight office, are off duty on account of influenza.

J. B. Mitchell, superintendent of bridges and buildings on the Wabash, is in the city.

J. R. Wells, of the Olds blacksmith shops, has returned to work after a week's sickness.

C. A. Smith, of the Jenney works, was married last Saturday evening to Miss Della Broxom.

Willam Rhodes, of the Pittsburg machine shops, is recovering from an illness of four weeks.

Wm. F. Gebhard, formerly of the Bass works, but lately working at New Orleans, has taken a position at the Pitlsburg machine shops.

The employes of the Olds wheel works will see in our local columns the account of the free-for-all fight which took place last night at the works.

E. G. Pierce, machinist at the Pittsburg shops, had his arm broken at the wrist yesterday while at work around his lathe and will be off duty for some time.

R. R. S. York, who has been appointed passenger agent of the Wabash on the Pacific slope, with headquarters at San Francisco, years ago was a reporter on the Indianapolis *Journal*, and later was with Colonel Ruckle when he was sheriff and afterward clerk of the criminal court.

The establishing of car-service association to control all important railroad junction points will, doubtless, lead to the building of elevators and storehouses, and more tracks at all important railroad points, inaugurating a new method of doing business, and one which promises good results.

It is reported that steps to oppose the eight-hour movement proposed by the American Federation of Labor will be taken at the meeting of the National Builders' association in St. Louis next month. It is also understood that a firm stand against the movement will be taken by the builders on May 1 if the employes attempt to enforce it.

The Pennsylvania people expect to have the cut-off line, which will run from Downingten to Morrisville, Pa., which will be fifty-three miles in length, completed by December 1, 1890. It is stated that the relief which this improvement will afford to the New York and Philadelphia divisions will be equal to fully 50 per cent. of the gross traffic now being condemned.

J. D. Byanski, machinist at the Pittsburg shops, while at work yesterday afternoon, met with an accident by which the nail on one of his thumbs was completely torn from that member. The accident was a very painful one, but Mr. Byanski scarcely flinched as he went to the office of Foreman Fitzpatrick, where Clerk Christ Dasler placed a bandage around the wound. The injured employe will be off duty for some time.

The following appointments have been made by the Ohio, Indiana and Western road: J. A. Shirely, superintendent of telegraph; C. N. Atkinson, car accountant; J. H. M. Claggett, cashier and paymaster. Mr. Palmerton has for twenty years been a conductor on the road, and Mr. Shirely chief train dispatcher for the same period. Mr. Claggett was car accountant, and was in the car when Superintendent Wilson and Trainmaster Cummins were killed. Mr. Atkinson will retain his place as chief clerk to the general manager.

"Book's" Got "La Grippe."

The Indianapolis *Sun* says: "Chas. A. Bookwalter, better known as "Book," adjutant-general of the Sons of Veterans and clerk of the printing bureau, is at home in bed with the "latest agony," and isn't proud of it, either. His superior officer, Secretary-of-state Griffin is also afflicted in a mild way and is taking quinine by the peck measure.

THAT fierce Apache, GeroLimo, who is confined at Mount Vernon Barracks, Alabama, has learned to play the banjo. His guard has less trouble in preventing his running away than in keeping him from getting drunk. The savage vagabond drowns his grief in rum at every opportunity.

After diphtheria, scarlet fever, or pneumonia, Hood's Sarsapilla will give strength to the system, and expel all poison from the blood.

The influenza seems to have taken the place of "the elixir of life."

"STOP"—Nature Has a Cure.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me, I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

THE STATE TEACHERS.

The State Association Favors a Compulsory Education Law.

At the session of the State Teachers' association, the following resolutions were adopted without debate:

That we favor a judicious compulsory educational law.

That there should be a standard of proficiency for the county superintendency and that the office should be free from the influence of party politics.

That our schools should be supplied with the best text-books that genius, experience and mechanical skill can produce, and that adoption in all cases should be free from the influence of monopolies.

That we view with gratification the study of pure and wholesome literature by the teachers and pupils of the state, and that the tendency toward a scientific investigation of educational problems by the teachers generally is to be commended.

That the Indiana State Teachers' association should exercise a directing influence in the school legislation of the state.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Beauty and Utility.

No more appropriate or useful Christmas present can be given by a parent to a son or daughter than a Caligraph Type Writer. The time is not far distant when a type writer will be found in every intelligent home. The educational value of a type writer is unquestioned. It assists in learning to spell correctly, and results in a close observation of the construction of sentences, and helps to form the habit of composition. W. E. McDermut is the Fort Wayne agent for the Caligraph, which embraces the latest and best improvements in writing machines. Call and get samples, and see the machine in actual operation. 14-jan1.

The Forum.

A MONTHLY REVIEW OF LIVING SUBJECTS

By the Foremost Writers in the World.

JOHN G. CARLISLE.

THE FORUM has won the highest place reached by any periodical; for it publishes articles by more authoritative writers and by more workers along instructive lines of activity than any other publication. It contains eleven studies of great subjects every month. It is impartial, giving hearings alike to each side. It is financially independent, and it belongs to no sect or party or "interest." It is never sensational, but it aims always to be instructive.

I consider THE FORUM as furnishing the most intelligent and sympathetic audience that a thoughtful writer can find to address in any land.—*Prof. ALEXANDER WINCHELL, of the University of Michigan.*

THE FORUM continues to hold its place as the foremost of our magazines, for the variety, the value, and the weight of its contributions.—*THE NEW YORK TIMES.*

Announcements of forthcoming articles can seldom be made long in advance, for THE FORUM's discussions are always of problems of present concern. Every such problem that the year 1890 will bring forward will be discussed, whether in politics, or religion, or social science, or practical affairs. The January number will contain a reply by ex-Speaker J. G. CARLISLE to Senator Cullom's recent article on "How the Tariff Affects the Farmer."
